## **CRITIQUE**

This was a show that I had anticipated with much pleasure and was not disappointed. My thanks to you and your officers and committee for a memorable day in pleasant company and a friendly atmosphere. I really hope that I have not offended any exhibitors with my critique, but in critiques praise and criticism go hand in hand.

---

**My impression overall was that the bitches were rather better than the dogs but that is my opinion and I was really pleased with my BIS, RBIS and BP. I was grateful to my two excellent stewards who kept me on the straight and narrow and to Terry who worked hard all day taking the photos.**

## **DOG CLASSES**

### **Class 1 - MINOR PUPPY DOG (no entries)**

### **Class 2 - PUPPY DOG (4 : 2 abs)**

- 1st - Sutherland's Jacranella Solo. 10 mths, compact and well boned puppy, short coupled with clean neck and shoulder, good topline, coat coming nicely. A bit of a fidget but good natured with it.

### **Class 3 - JUNIOR DOG (4 : 1 abs)**

- 1st Yacoub's Laithmoor Marek. 13 mths. A really good type with strong body, good legs and correct amount of bone, tail curled up a bit but well set on. Back short, strong and well muscled for age and with slightly arched loin, well coated and of good colour.
- 2nd Attwoods Kylowen Drym. Lighter build but bigger with a tendency to legginess, flatter coat but less of it. Croup a little low, acceptable head and expression but could do with a bit more lip.

- 2nd - Dawson's Ferndel Fool Hardy. Neater type than first. Front a little wide but movement acceptable. Plenty of coat and leg feathering which exaggerated the apparent width in front.

### **Class 9 - LIMIT DOG (3 : 1 abs)**
